DESCRIPTORS	*Biology; *Disease Control; Group Activities; Hands on Science; Inquiry; Interdisciplinary Approach; Middle Schools; Physics; *Plant Pathology; Science Education; Science Instruction; Scientific Literacy; *Student Centered Curriculum

ABSTRACT

This book is designed for middle school students to learn scientific literacy through event-based science. Unlike traditional curricula, the event-based earth science module is a student-centered, interdisciplinary, inquiry-oriented program that emphasizes cooperative learning, teamwork, independent research, hands-on investigations, and exploration of authentic tasks. Students use this book to work in cooperative groups to develop a television show about a disease affecting crops in a U.S. state. (KHR)
